

CHRISTIAN BROTHERS COLLEGE HIGH SCHOOL
MATHEMATICS DEPARTMENT

The following is the CBC Mathematics Department's expectations regarding calculators.

A TI-84 Graphing calculator is required for all mathematics courses at Christian Brothers College High School.

This calculator will be used all four years at Christian Brothers College High School and is allowed on most assessments in the CBC mathematics department. This calculator is allowed on the ACT, SAT, and AP Exams. These calculators cost \$100 - \$150 new. The best deals are during the back-to-school sales in July and August, but you can often find good used models on eBay for \$50-75. It is the student's responsibility to bring his calculator to every mathematics class so that he can participate in the daily activities.

TI 84 – Plus CE (most popular)

TI 84 – Plus (Regular or silver)

***Do not purchase a TI-89 or any calculator with "CAS" in the name as these are not permitted on the ACT, AP Exams, or Mathematics assessments at CBC.**

***Additionally, it is recommended that *you do NOT purchase a TI-Nspire* as the built-in programs are very different for a few of our courses.**

***Phones and laptops will not be allowed to be used as calculators while at school.**
